

HACKATHON PITCH DECK

SetuCredit

Democratizing Rural Credit via India's UPI

Voice-guided, consent-first alternative credit passports unlocking instant micro-loans for Bharat's next 500 million.

TEAM

SetuCredit Core Team

TRACK

Financial Inclusion & Digital Public Infrastructure (DPI)

VISION

Unlocking frictionless credit data trust just as UPI unlocked digital payments

2

The Ground Reality: Bharat's Credit Gap

The 'Data-Rich, Credit-Poor' Paradox in Tier 3/4 India

400M+

individuals excluded from formal credit

63M

MSMEs left outside formal credit systems

₹3,000+

manual bank origination cost (CAC) per loan

36%-60%

APR paid in predatory informal debt

Rigid underwriting Traditional underwriting relies strictly on CIBIL, ITRs, and salary slips.

Siloed data Valuable non-financial data (land patta, electricity bills, dairy yields) sits in isolated silos.

Unprofitable micro-loans Manual origination CAC (above ₹3,000) makes small-ticket loans unviable for banks.

Debt trap Borrowers end up trapped in predatory informal debt paying 36%-60% APR.

3

The Solution: SetuCredit Architecture

A Consent-Driven Alternative Underwriting Engine

Vernacular & Voice-First Onboarding via Bhashini AI in regional languages (Hindi, Telugu, etc.).

DPI-Powered Ingestion Seamless retrieval via RBI ULI & Account Aggregator.

Verified Signals Dharani/Bhulekh land records, DISCOM utility discipline, Mandi/Dairy receipts.

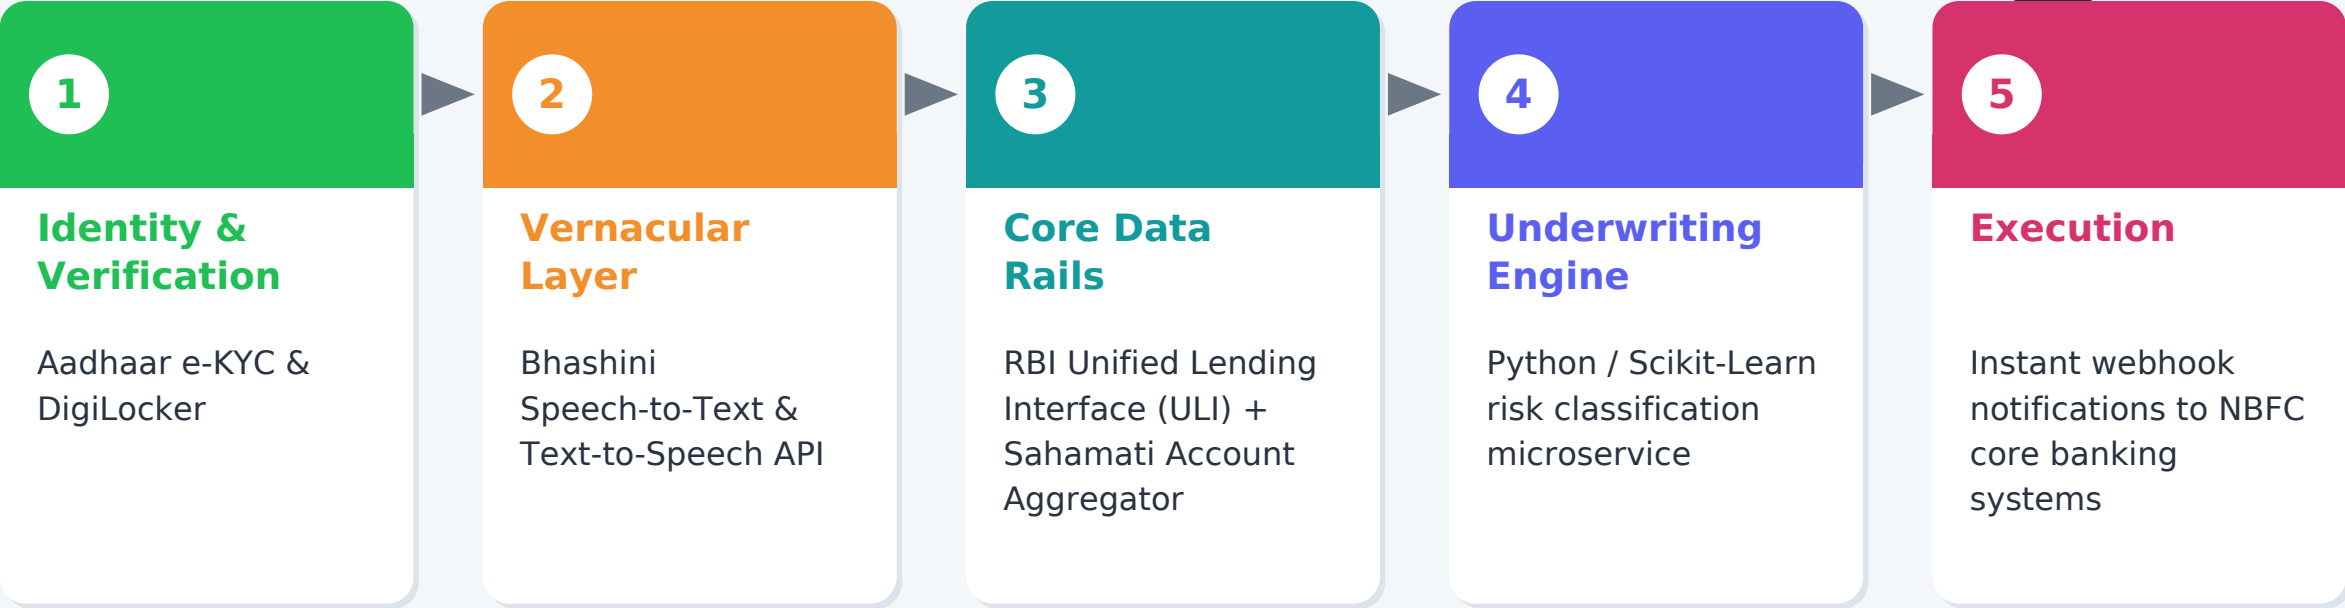

Real-Time Scoring Instant computation of 'Borrower Readiness Index' (0-100).

Zero-Touch Disbursal Automated lender underwriting and instant fund credit via UPI/IMPS.

4

The Technical Secret Sauce

How the Ecosystem Connects End-to-End

Consent > Data Ingestion > Scoring > Lender Decision > Instant UPI Disbursal

5

Unit Economics & Commercial Viability

Turning Low-Ticket Lending into a High-Margin Channel

ORIGINATION COST (CAC)

< ₹50

per approved loan, down from ₹3,000+

TURNAROUND TIME

< 2 min

reduced from 3-4 weeks

BORROWER INTEREST BURDEN

11%-14%

formal bank APR, vs 36%+ informal rates

REVENUE MODEL (B2B2C)

0.75%-1.5%

origination fee charged to lenders

Free for borrowers. Lenders pay only for approved, originated loans.

6

Target Market & Scaled Impact

Empowering Rural Supply Chains

140M

smallholder farmers in the
addressable segment

63M

micro-enterprises in the
addressable segment

Timely Liquidity Seasonal fertilizer procurement & micro-inventory turnover.

Formal Identity Creation Builds an auditable track record for future long-term credit.
